Re: 17-108

Dear Secretary,

I have recently been made aware of 17-108, Restoring Internet Freedom, and wanted to state that I am opposed to the actions that will give internet providers the power to restrict or manipulate my internet access. I believe that internet service providers should not be reclassified under new rules and that net neutrality should be maintained. I see 17-108 as a censorship that violates basic freedoms to access information intended to be accessible.

Thank you,

Alice Burgi
